Athena introduces the new **Big Bore cylinder kit** for **Honda CRF 250 2018**. This kit offers a significant increase of power - especially at lower RPM - on all the power curve, offering high performances **without modifications of the engine crankcase and maintaining the rest of the original components**. The nickel silicium coated cylinder is matched with a forged piston to reach **best performances and reliability**, thanks to severe tests of resistance at **the highest temperatures and pressures**.
