Athena presents the new standard bore **cylinder kit** developed for **Kawasaki KX 450 F 2016/2018**. The kit allows the same performance as the original cylinder kit, **extreme reliability and an optimal run to the piston**, thanks to the lightweight aluminum cylinder and the nickel-silicon plating. All the components of the kit have been developed to resist at the highest temperatures, pressures and stress and are perfectly replaceable to the original components. This cylinder kit can **be installed without any crankcase machining**.
