Athena introduces the new **standard bore cylinder kit** for **Honda CRF 250 R 2018/2019**. The cylinder barrel is plated with **Motor-Nikasil®**. It is matched with a special Molybdenum Disulfide silk screen-printed coating. This solution guarantees **friction reduction, greater slap and constant performance over time**. Athena cylinder kits are made of aluminum and are tested both in dyno tests and on the track with the collaboration of the riders to meet or exceed OEM specifications. The kit is perfectly suitable with the OEM components and **can be installed without making any change to the motorcycle crankcase**.
